Year 2020-21 at a glance

Year 2020 started with corona pandemic which shuts schools and forced manpower to move towards their homeland. So as a part of society we try to

realize our responsibilities and started a migrant labour's camp at Ambernath. Some organizations joined our initiative and help us. Same time we distribute ration packets to poor and blind people. Our donors supported us for this initiative with open hearted.

Every year we plant some trees in our school and nearby area to inculcate value of love and gratitude towards nature. Even pandemic didn't stop our tradition of plantation.

EDUCATION

Due to corona schools were closed for one year completely which affects the students who live in rural area and remote area. First, we run our “Home Schooling” initiative for primary section in which we engage parents

and teachers in learning process with the help of online classes. In most of the homes we encourage mother to become teacher of his own child, which helps to strengthen relation of mother-child.

For secondary section we tried to provide online schooling facility to our students. We conduct some classes fluently. But most of the students in our schools which belongs to the Adivasi community who don't have the access of mobile and connectivity. So, for this vulnerable class we started “Gaon Shala Program” in which our teachers frequently visited students in their locality and help them in studies.

Parents and students were happily welcome this initiative and we were also able to maintain contact with the students.

“Education is the most powerful weapon which can use to change the world.” We are hopeful about this quote so we are trying to provide pleasant and easy learning.

Lily Tomlin said, “I always wondered why somebody doesn’t do something about that. Then I realized I was that somebody.” By keeping in mind this statement our organization without waiting someone is trying to put some

efforts for community development. We have established Mahatma Gandhi Niketan, a residential school for Adivasi and needy girls and boys. Mahatma Gandhi Niketan runs residential school for the care, education and upbringing

of orphans, semi-orphans, katkari, warali and other tribals and needy backward class boys and

girls. Acharya vinoba Bhave Gurukul is a school based on sustainable

ancient gurukul principles, and teachings of Mahatma Gandhi- Acharya Vinoba Bhave.

Also we are running evening tution for needy school students. We also provide study material for those students.

WOMEN EMPOWERMENT

Our organization is trying to empower women through providing them employment opportunities. So, we are trying to get involved more and more women in the process of our papad making guruhudyog.

Urban and rural grocery stores, hotels, caterers, individual consumers provide market for this project. We maintained all hygiene and quality while production. As well don't use any harmful content. By providing permanent

employment opportunities to needy women in rural and urban areas in terms of economic empowerment is our aim.

HEALTH

Every year Sanstha organises health camps with the help of our donors and partners. This year due to pandemic we felt that there is need to contribute more for this noble cause and we organise camps in rural and Adivasi area.
