

UJWAL PRABODHINI SANSTHA, BADLAPUR

Annual Report 2021-22

Letter from Trustee

“We established Ujwal Prabodhini Sanstha in 1997 as an educational society. In 2021 we have completed 24 years successfully. We have just started with one secondary school in Rahatoli village near Badlapur in

Ambernath Taluka. But after 23 years our organization have one secondary Marathi medium school, one primary English medium school, one residential school for Tribal & needy child, one free tuition centre and one papad udyog for women empowerment.

This couldn't happen without the support of our organization members, friends, donors and most importantly the people who have faith on our work.

We are committed to give better to our society, students and employees working with us.

Thank you for your moral and active support for organization.”

Regards,
Mr.Ramesh Anant Wage
(Ujwal Prabodhini Sanstha)

YEAR AT A GLANCE

After pandemic schools were started with lot of restrictions and care. There was a lot of challenges while engaging students again in daily school activities. But at last year as we had run “Gaon Shala Programme” we were hopeful to manage the changed scenario of education system and student’s attitude. With lot of hop and positive attitude, we restart our school with full of excitement.

Our residential school did not affect much in pandemic as it was working smoothly even in pandemic. Our student strength was also increased after pandemic as parents were happy about our system and learning process.

Women in our Gruhudyog were happy because not only we managed to employ them even in pandemic but also, we provide lot of facilities to them i.e. organises health camps for them, distributes ration kits, masks, napkins, sanitizers and other hygiene products.

EDUCATION

Our schools trying their best to develop the personality of students. They can compete with the students in urban area. Our main aim is to provide the quality education to those students who are far from the education.

Education is not only reading the books it is about reading the life and capacity building. So, we are trying

to involved our students of school and study centre in various activities.

After pandemic strength in our Mahatma Gandhi Niketan increases from 30 to 60. All students are from backword community which were suffered in pandemic due to lack of educational facilities. We not only focused on their traditional educational aspect as well their personality development, vocational skills.

Women Empowerment

Our Papad Udyog spreading his wings day by day and many women can have peaceful life under it. We start it project merely with 50 women but now a days more than 300 women are employed under the Gruh Udyog. Demand for our delicious product is increasing day by day.

We also stalled the product in various exhibition. We organized tree plantation program and study material distribution through our papad udyog.

HEALTH

After pandemic, we felt need of health facilities in our area is increasing day by day. So first we organised camps for our schools and women empowerment project. And increased its area by covering our Murbad and Ambernath Tehsil with the help of our partners like Srujana Group and Mahaganapati Hospital.
